Independent Auditors' Report

To the Town Council of Town of Thatcher, AZ

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Thatcher, Arizona (the Town), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town as of June 30, 2023 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Other Matters

Compliance Over Use of Highway User Revenue Fund and Other Dedicated State Transportation Revenue Monies

In connection with our audit, nothing came to our attention that caused us to believe that the Town failed to use highway user revenue fund monies received by the Town pursuant to Arizona Revised Statues Title 28, Chapter 18, Article 2, and any other dedicated state transportation revenues received by the Town solely for the authorized transportation purposes, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Town noncompliance with the used of highway user revenue fund monies and other dedicated state transportation revenues, insofar as they relate to accounting matters.

The communication related to compliance with the aforementioned indenture described in the Other Matter paragraph is intended solely for the information and use of the Arizona State Legislature, management and other responsible parties within the Town and is not intended to be and should not be used by anyone other than these specified parties.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

TOWN OF THATCHER, ARIZONA Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds June 30, 2023

Fund balances-total governmental funds	\$ 9,904,439
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	19,843,004
Some receivables are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue in the funds.	263,092
Net pension/OPEB assets held in trust for future benefits are not available for Town operations and, therefore, are not reported in the funds.	207,747
Liabilities, such as net pension/OPEB liabilities and notes payable, are not due and payable in the current period and, therefore, are not reported as a liability in the funds.	
Compensated absences(278,125)Notes payable(680,000)	
Leases payable(579,640)Net pension/OPEB liability(4,381,720)	(5,919,485)
Deferred outflows and inflows of resources related to pensions/OPEB and deferred charges or credits on debt refundings are applicable to	
future reporting periods and, therefore, are not reported in the funds.	2,281,660
Net position of governmental activities	\$ 26,580,457

TOWN OF THATCHER, ARIZONA Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities **Governmental Funds** Year Ended June 30, 2023

Net change in fund balances-total governmental funds		\$ (407,110)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. Capital outlay Depreciation/amortization expense	2,004,443 (1,190,596)	813,847
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. Unavailable revenues		75,334
Town pension/OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the statement of net position because the reported net pension/OPEB liability is measured a year before the Town's report date. Pension/OPEB expense, which is the change in the net pension/OPEB liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities. Town pension/OPEB contributions Pension/OPEB expense	1,872,462 (630,463)	
	(000,000)	1,241,999
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Debt principal repaid Leases payable	280,782 (575,818)	(295,036)
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available. Decrease in compensated absences payable		12.313
Change in net position of governmental activities		\$ 1,441,347

Noncash investing, capital, and noncapital financing activities: For the year ending June 30, 2023, the Sewer Fund acquired the right to use a vehicle under the terms of a lease agreement. The value of the right to use asset is \$39,145.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Town of Thatcher, Arizona have been prepared in conformity with U.S. generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

A. Reporting Entity

The Town is a general-purpose local government that is governed by a separately elected Town Council. The accompanying financial statements present the activities of the Town.

B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the Town as a whole, while the fund statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

Government-wide statements—provide information about the primary government (the Town). The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities. They also distinguish between the Town's governmental and business-type activities. Governmental activities generally are financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities and segment of its business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Town does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers or applicants for goods, services, or privileges provided;
- operating grants and contributions; and
- capital grants and contributions, including special assessments.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes the Town levies or imposes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double-counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

Fund financial statements—provide information about the Town's funds. Separate statements are presented for the governmental and proprietary fund categories. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund revenues and expenses are classified as either operating or nonoperating. Operating revenues and expenses generally result from transactions associated with the fund's principal activity. Accordingly, revenues, such as user charges and insurance premiums, in which each party receives and gives up essentially equal values are operating revenues. Other revenues, such as subsidies, result from transactions in which the parties do not exchange equal values and are considered nonoperating revenues along with investment earnings and revenues ancillary activities generate. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense, are considered nonoperating expenses.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Grants Fund* accounts for financial resources received from various entities. Restrictions on the use of these resources are derived from the agreements from which the resources were provided.

The *HURF Fund* accounts for specific revenue received from the State of Arizona Highway User Revenue Fund, which is legally restricted to expenditures for authorized transportation purposes.

The Town reports the following major enterprise funds:

The *Sewer, Electric, and Sanitation Funds* account for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the Town Council is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

for which the Town Council has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Basis of Accounting

The government-wide and proprietary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Under the terms of grant agreements, the Town funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The Town applies grant resources to such programs before using general revenues.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The Town considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The Town's major revenue sources that are susceptible to accrual are taxes, special assessments, intergovernmental, charges for services, and investment earnings. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, landfill closure and postclosure care costs, and pollution remediation obligations, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

D. Cash and Investments

For the statement of cash flows, the Town's cash and cash equivalents are considered to be cash on hand, demand deposits, investments in the State Treasurer's local government investment pool, and only those highly liquid investments with a maturity of three months or less when purchased.

All investments are stated at fair value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

E. Allowance for Uncollectible Accounts

Allowances for uncollectible accounts receivable in the Sewer Fund, Electric Fund, and Sanitation Fund are estimated by the Town. The amounts recorded as uncollectible in the Sewer, Electric, and Sanitation Funds at June 30, 2023, totaled \$16,008, \$169,531, and \$14,391, respectively.

F. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

G. Capital Assets

Capital assets are reported at actual cost (or estimated historical cost if historical records are not available). Donated assets are reported at acquisition value.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation/amortization methods, and estimated useful lives of capital assets are as follows:

	Capitalization Threshold		Depreciation Method	Estimated Useful Life
Land	\$	5,000	N/A	N/A
Buildings		5,000	Straight-line	50
Other long-term assets		5,000	Straight-line	50
Infrastructure		5,000	Straight-line	50
Heavy equipment		5,000	Straight-line	15
Light equipment		5,000	Straight-line	10
Vehicles		5,000	Straight-line	10
Computers and peripherals		5,000	Straight-line	5
Intangibles:				
Right-to-use lease assets:				
Vehicles		5,000	Straight-line	5

Intangible right-to-use lease assets are amortized over the shorter of the lease term or the useful life of the underlying asset.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

H. Fund Balance Classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations that the Town Council has approved, which is the highest level of decision-making authority within the Town. Only the Town Council can remove or change the constraints placed on committed fund balances.

Assigned fund balances are resources constrained by the Town's intent to be used for specific purposes, but that are neither restricted nor committed. The Town Council has authorized the Town manager to assign resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the Town's policy to use (the Town will use) restricted fund balance first. It is the Town's policy to use (the Town will use) committed amounts first when disbursing unrestricted fund balances, followed by assigned amounts, and lastly unassigned amounts.

I. Net Position

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.

Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.

Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

J. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

K. Compensated Absences

Compensated absences consist of vacation and sick leave earned by employees based on services already rendered.

Employees may accumulate up to 800 hours of combined vacation and sick leave. Upon termination of employment, all unused vacation and sick leave benefits are paid to employees. Accordingly, vacation and sick leave benefits are accrued as a liability in the financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

L. Deferred Outflows/Inflows of Resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

M. Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Budgets

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at year end. The Town is subject to the State of Arizona's Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the carry-over unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complied with this law during the year.

Expenditures may not legally exceed budgeted appropriations at the department level. The individual budgetary comparison schedules as listed in the table of contents present all major governmental funds which incurred an excess of expenditures/expenses over appropriations for the year ended June 30, 2023.

O. Leases

As lessee, the Town recognizes lease liabilities with an initial, individual value of \$5,000 or more. The Town uses its estimated incremental borrowing rate to measure lease liabilities unless it can readily determine the interest rate implicit in the lease. The Town's estimated incremental borrowing rate is based on the Town's borrowing rate for unsecured debt for a comparable amount and time period, and then decreased the based on full collateral.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

As lessor, the Town recognizes lease receivables with an initial, individual value of \$10,000 or more. If there is no stated rate in the lease contract (or if the stated rate is not the rate the Town charges the lessee) and the implicit rate cannot be determined, the Town uses its own estimated incremental borrowing rate as the discount rate to measure lease receivables. The Town's estimated incremental borrowing rate is calculated as described above.

NOTE 2 – DEPOSITS AND INVESTMENTS

Arizona Revised Statutes (A.R.S.) authorize the Town to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes, and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the Town Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

Credit risk

Statutes have the following requirements for credit risk:

- 1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
- 2. Bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars must be rated "A" or better at the time of purchase by at least two nationally recognized rating agencies.
- 3. Fixed income securities must carry one of the two highest ratings by Moody's investor's service and Standard and Poor's rating service. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

Custodial credit risk

Statutes require collateral for deposits at 102 percent of all deposits federal depository insurance does not cover.

Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

NOTE 2 – DEPOSITS AND INVESTMENTS – Continued

Foreign currency risk

Statutes do not allow foreign investments unless the investment is denominated in United States dollars.

The Town's investment policy states that the Town will conform with Arizona Revised Statutes. The Town does not have a formal investment policy with respect to custodial credit risk, concentration of credit risk, or foreign currency risk.

Restricted cash—Restricted cash in the Electric Fund consists of cash restricted for refundable deposits.

Deposits—At June 30, 2023, the carrying amount of the Town's total nonpooled cash in bank was \$1,664,708, and the bank balance was \$2,111,655. Of this amount, \$250,000 was insured by FDIC.

At June 30, 2023, \$1,861,655 of the Town's bank balance was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 58,652
Uninsured with collateral held by the pledging financial institution	1,803,003
	\$ 1,861,655

Investments—The Town had total investments of \$6,025,500 at June 30, 2023. The Town categorizes certain investments measured at fair value within the fair value hierarchy established by generally accepted accounting principles as follows:

			Fair value mea	asurement using			
_		in a fo	Quoted prices in active markets for identical		nificant observable nputs		
Investment	 Amount	ass	assets (Level 1)		evel 2)		
Certificates of deposit	\$ 3,563,753	\$	3,563,753	\$	-		
U.S. Treasury securities	1,667,965		1,667,965		-		
Corporate bonds	492,151		492,151		-		
U.S. agency securities	248,530		248,530		-		
Money market funds	53,101		53,101		-		
	\$ 6,025,500	\$	6,025,500	\$	-		

Investments categorized as Level 1 are valued using prices quoted in active markets for those investments.

NOTE 2 – DEPOSITS AND INVESTMENTS – Continued

The Town also had investments of \$3,942,984 in the State Treasurer's investment pools measured at fair value. Investments in the State Treasurer's investment pools are valued at the pool's share price multiplied by the number of shares the Town held. The fair value of a participant's position in the pools approximates the value of that participant's pool shares. The State Board of Investment provides oversight for the State Treasurer's investment pools.

Credit risk—The Town follows the State statutes as part of its policy for credit risk. At June 30, 2023, credit risk for the Town's investments was as follows:

Investment	Rating Organization	Credit Rating	Reported Amount	Fair Value		
Arizona LGIP Pool 5	S&P	AAA	\$ 3,942,984	\$ 3,942,984		
Corporate bonds	S&P	A-1	492,151	492,151		
U.S. agency securities	S&P	A-1+	248,530	248,530		
			\$ 4,683,665	\$ 4,683,665		

Custodial credit risk—For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the Town will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. The Town follows State statutes as part of its policy for custodial credit risk.

Interest rate risk—The Town follows State statutes as part of its policy for interest rate risk. At June 30, 2023, the Town had the following investments in debt securities:

			Investment maturities						
Investment		Amount		Year			1-5 years		
Arizona LGIP Pool 5	\$	3,942,984		\$	3,942,984		\$	-	
Certificates of deposit		3,563,753			487,779			3,075,974	
U.S. Treasury securities		1,667,965			496,772			1,171,193	
Corporate bonds		492,151			244,348			247,803	
U.S. agency securities		248,530			-			248,530	
Money market funds		53,101			53,101			-	
	\$	9,968,484		\$	5,224,984	_	\$	4,743,500	

NOTE 2 – DEPOSITS AND INVESTMENTS – Continued

A reconciliation of cash, deposits, and investments to amounts shown on the statements of net position follows:

Cash, deposits, and investments:		
Cash on hand	\$	500
Cash in bank		1,664,708
Investments	-	3,996,085
Total cash, deposits, and investments Restricted cash		5,661,293 (134,541)
Total cash and cash equivalents	\$	5,526,752

NOTE 3 – DUE FROM OTHER GOVERNMENTS

Amounts due from other governments in the governmental funds at June 30, 2023, included \$30,860 in state-shared revenue from sales taxes, \$16,867 in state-shared revenue from auto lieu taxes, \$45,377 from the Central Jackson Heights Fire District, \$20,888 from the City of Safford for shared court costs, \$2,731 from the Town of Pima for shared court costs, \$14,160 from the Arizona Department of Homeland Security, \$4,520 from the Governor's Office of Highway Safety, \$96,724 from the Arizona Department of Emergency and Military Affairs, and \$36,295 from the State of Arizona for HURF revenue.

NOTE 4 – LEASE RECEIVABLES

The Town leases commercial building space to a third party under the terms of a lease agreement. The lease began in August 2017 and continues until July 2037. The monthly lease payment is \$2,000 and is reviewed every 5 years and may be adjusted up or down based on mutual agreement by both parties.

During the fiscal year ended June 30, 2023, the Town recognized total lease-related revenues of \$8,515 of interest and \$18,076 of rents from this lease.

The Town leases land to a third party under the terms of a lease agreement. The lease began in December 2017 and provides for a five-year initial lease period with 6 addition 5-year renewal periods. The monthly lease payment at the initial date was \$1,530 and is automatically increased by 3% each year.

During the fiscal year ended June 30, 2023, the Town recognized total lease-related revenues of \$18,102 of interest and \$17,432 of rents from this lease.

NOTE 5 – DEPOSITS WITH SPPA

During the fiscal year 2014-15, the Town contributed \$442,000 (of which \$353,000 power contract security deposit and \$89,000 SPPA working capital) to Southwest Public Power Agency, Inc (SPPA). During the current fiscal year, the Town contributed an additional \$46,500. SPPA aids a joint venture in which SPPA is an agent for a number of public entities, including the Town, to act on behalf of its members in (i) operating a power pool, and (ii) managing power supply contracts; and (iii) fulfilling contract obligations related to the purchase capacity and energy for a 25-year period beginning on January 1, 2015.

Financial statements of SPPA can be provided by the Town upon request.

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2023, was as follows:

	Balance July 1, 2022 as restated	Increases	Decreases	Balance June 30, 2023
Governmental activities:

long-term liabilities	\$ 806,977	\$ 210,943	\$ 45,711	\$ 972,209	\$ 73,653

Note payable from direct borrowing and direct placement – In April 2008, the Town entered into a note agreement with the Greater Arizona Development Authority (GADA) in the amount of \$2,500,000. The note is secured by state-shared revenues. Payments of interest are due semiannually on February 1 and August 1 beginning on February 1, 2009. Payments of principal are due annually beginning on August 1, 2009 with the note maturing on August 1, 2029. Annual interest rates range from 4.50 to 5.00 percent.

The note proceeds were split between the Electric Fund and the General Fund. The proceeds going to the Electric Fund were used to purchase a portion of the electrical system located with the Town limits. The proceeds going to the General Fund were used to purchase a commercial building. Each fund will pay its proportionate share of the debt service expenditures.

NOTE 7 – LONG-TERM LIABILITIES – Continued

Year		Note payable from direct borrowing and direct placement											
Ending		Governmen	tal Act	tivities		Business-ty	pe Acti	vities		Total			
June 30,	P	rincipal]	Interest	F	Principal Interest		Principal		Interest

The following details the debt service requirements to maturity for the GADA note:

Leases – The Town has acquired vehicles under the provisions of various lease agreements. All the lease agreements have 60-month terms.

The total amount of lease assets and the related accumulated amortization are as follows:

	Governmental Activities			Business-type Activities		
Total intangible right-to-use lease assets Less: accumulated amortization	\$	761,266 (134,015)	\$	61,347 (14,947)		
Carrying value	\$	627,251	\$	46,400		

The following schedule details minimum lease payments to maturity for the Town's leases payable at June 30, 2023:

Year		Leases payable											
Ending	Governmental Activities				Business-type Activities				Total				
June 30,	I	Principal		Interest		Principal		Interest		Principal		Interest	
2024	\$	119,274	\$	50,325	\$	11,520	\$	2,285	\$	130,794	\$	52,610

Total	\$	579,640	\$	131,904	\$	48,102	\$	5,431	\$	627,742	\$	137,335	

NOTE 8 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial insurance for all such risks of loss, including workers' compensation and employees' health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 9 – INTERFUND BALANCES AND ACTIVITY

Interfund receivables and payables of the governmental funds consisted of \$117,468 loaned by the General Fund to the HURF Fund to help meet fund obligations. It is anticipated that this amount will be repaid to the General Fund once receivables are collected.

Interfund receivables and payables of the business-type funds consisted of amounts loaned by the Electric Fund to the Sewer and Sanitation Funds to help meet fund obligations. The amounts payable from the Sewer and Sanitations Funds to the Electric Fund at year end were \$1,389,393 and \$800,393, respectively.

During the fiscal year, the Town transferred \$40,000 from the Sewer Fund to the General Fund to cover general expenditures of the Town. The Electric Fund transferred \$78,222 to the General Fund to cover a portion of the Reay Lane project. The Grants Fund transferred \$434,174 to the General Fund to cover general expenditures of the American Rescue Plan Act (ARPA) funding during the year. The General Fund transferred \$13,192 to the Grants Fund to cover expenditures incurred in the Grants Fund not reimbursable under grant agreements.

NOTE 10 – RESTATEMENT OF BEGINNING BALANCES

The Town reclassified \$132,439 of prior period right-of-way acquisitions from Infrastructure capital assets to Land capital assets in Governmental Activities.

In addition, the Town decreased Infrastructure capital assets by \$161,971. The original \$161,971 expenditure was a return of grant funds to the State of Arizona and should not have been recorded as a capital asset. The result is a reduction of net position of the Governmental Activities of \$161,971.

Additional adjustments of \$8,112 were made to beginning accumulated depreciation based on these combined adjustments. The net result of the total combined adjustments was a decrease in capital assets and net position of the Governmental Activities of \$153,859.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The Town contributes to the pension plans described below. The plans are component units of the State of Arizona.

At June 30, 2023, the Town reported the following aggregate amounts related to pensions and other postemployment benefits (OPEB) for all plans to which it contributes:

Statement of Net Position and Statement of Activities	 overnmental Activities	usiness-type Activities	 Total
Net pension/OPEB assets	\$ 207,747	\$ 23,217	\$ 230,964
Net pension/OPEB liabilities	4,381,720	676,440	5,058,160
Deferred outflows of resources			
related to pension and OPEB	2,420,145	133,738	2,553,883
Deferred inflows of resources			
related to pension and OPEB	138,485	32,766	171,251
Pension and OPEB expense	630,463	77,975	708,438

The Town reported \$1,872,462 of pension and OPEB contributions as expenditures in the governmental funds related to all plans to which it contributes.

A. Arizona State Retirement System

Plan Description – Town employees not covered by the other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at <u>www.azasrs.gov</u>.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Benefits Provided – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefits terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Initial Membership Date:						
	Before July 1, 2011	On or after July 1, 2011					
Years of service and age	Sum of years and age equals 80	30 years age 55					
required to receive benefit	10 years age 62	25 years age 60					
	5 years age 50*	10 years age 62					
	Any years age 65	5 years age 50*					
		Any years age 65					
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months					
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%					

*With actuarially reduced benefits.

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service or the service on record as of the effective disability date if their service is greater than 30 years.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2023, statute required active ASRS members to contribute at the actuarially determined rate of 12.171 percent (12.03 percent for retirement and 0.14 percent for long-term disability) of the members' annual covered payroll, and statute required the Town to contribute at the actuarially determined rate of 12.17 percent (11.92 percent for retirement, 0.11 percent for health insurance premium benefit, and 0.14 percent for long-term disability) of the active members' annual covered payroll. In addition, the Town was required by statute to contribute at the actuarially determined rate of 9.68 percent (9.62 percent for retirement and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked for the Town in positions that an employee who contributes to the ASRS would typically fill. The Town's contributions to the pension, health insurance premium benefit, and long-term disability plans for the year ended June 30, 2023, were \$234,671, \$2,122, and \$2,730, respectively.

During fiscal year 2023, the Town paid for ASRS pension and OPEB contributions as follows: 73.95 percent from the General Fund, 3.84 percent from the Sewer Fund, 17.75 percent from the Electric Fund, and 4.46 percent from the Sanitation Fund.

Liability - At June 30, 2023, the Town reported the following asset and liabilities for its proportionate share of the ASRS' net pension/OPEB asset or liability.

	Net P	ension/OPEB
	(Ass	et) Liability
Pension	\$	2,595,233
Health insurance premium benefit		(89,128)
Long-term disability		1,469

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The net asset and net liabilities were measured as of June 30, 2022. The total liability used to calculate the net asset or net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2021, to the measurement date of June 30, 2022.

The Town's proportion of the net asset or net liability was based on the Town's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2022. The Town's proportions measured as of June 30, 2022, and the change from its proportions measured as of June 30, 2021, were:

	Proportion	Increase (decrease)
	June 30, 2022	from June 30, 2021
Pension	0.01590%	0.00118%
Health insurance premium benefit	0.01597%	0.00100%
Long-term disability	0.01591%	0.00106%

Expense – For the year ended June 30, 2023, the Town recognized the following pension and OPEB expense.

	Pens	ion/OPEB
	E	Expense
Pension	\$	312,065
Health insurance premium benefit		(13,319)
Long-term disability		584

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Deferred Outflows/Inflows of Resources—At June 30, 2023, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

		Pen	sion		He	ealth Insura Ber	ance Pr nefit	emium
	Ou	eferred utflows of esources	Deferred Inflows of Resources		Out	Deferred Outflows of Resources		eferred lows of sources

contributions and proportionate share of contributions Town contributions subsequent to the measurement date		719 2,730		335				
	¢		¢					
Total	\$	5,014	\$	5,336				

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The amounts reported as deferred outflows of resources related to ASRS pensions and OPEB resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net asset or a reduction of the net liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized as expenses as follows:

			Healt	h Insurance	L	ong-Term
Year ended June 30,]	Pension	Prem	ium Benefit]	Disability
2024	\$	185,837	\$	(13,850)	\$	(231)
2025		25,160		(15,052)		(313)
2026		(118,691)		(16,490)		(657)
2027		109,415		(2,695)		(91)
2028		-		(2,496)		(702)
Thereafter		-		-		(1,058)

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

ASRS	
Actuarial valuation date	June 30, 2021
Actuarial roll forward date	June 30, 2022
Actuarial cost method	Entry age normal
Investment rate of return	7.0%
Projected salary increases	2.9-8.4% for pensions/not applicable for OPEB
Inflation	2.3%
Permanent benefit increase	Included for pensions/not applicable for OPEB
Mortality rates	2017 SRA Scale U-MP for pensions and health insurance premium benefit
Recovery rates	2012 GLDT for long-term disability
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2020.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The long-term expected rate of return on ASRS plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Geometric Real Rate of Return
Equity	50%	3.90%
Fixed income - credit	20%	5.30%
Fixed income - interest rate sensative	10%	-0.20%
Real Estate	20%	6.00%
Total	100%	

Discount Rate – At June 30, 2022, the discount rate used to measure the ASRS total pension/OPEB liability was 7.0 percent, which was a decrease of 0.5 from the discount rate used as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Sensitivity of the Town's Proportionate Share of the ASRS Net Pension/OPEB (Asset) Liability to Changes in the Discount Rate – The following table presents the Town's proportionate share of the net pension/OPEB liability calculated using the discount rate of 7.0 percent, as well as what the Town's proportionate share of the net pension/OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0 percent) or 1 percentage point higher (8.0 percent) than the current rate:

	19	% Decrease (6.0%)	Cu	rrent Discount Rate (7.0%)	 1% Increase (8.0%)
Town's Proportionate share of the Net pension liability	\$	3,829,189	\$	2,595,233	\$ 1,566,306
Net insurance premium benefit liability (asset) Net long-term disability liability		(64,088) 2,436		(89,128) 1,469	(110,374) 533

Plan Fiduciary Net Position – Detailed information about the plans' fiduciary net position is available in the separately issued ASRS financial report.

B. Elected Officials Retirement Plan

Plan Description – Elected officials participate in the Elected Officials Retirement Plan (EORP), or the Elected Officials Defined Contribution Retirement System (EODCRS). EORP administers a cost-sharing multiple-employer defined benefit pension plan and a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan for elected officials who were members of the plan on December 31, 2013. The EORP pension and OPEB plans were closed to new members as of January 1, 2014. The PSPRS Board of Trustees governs the EORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The PSPRS issues a publicly available financial report that includes financial statements and required supplementary information for the EORP plans. The report is available on PSPRS's website at <u>www.psprs.com</u>.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Benefits provided – The EORP provides retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

	Initial Membership Date:					
	Before January 1, 2012	On or after January 1, 2012				
Retirement and Disability						
Years of service and age required						
to receive benefit	20 years of service, any age	10 years, age 62				
	10 years, age 62	5 years, age 65				
	5 years, age 65	any years and age if disabled				
	5 years, any age*					
	any years and age if disabled					
Final average salary is based on	Highest 36 consecutive months of last 10 years	Highest 60 consecutive months of last 10 years				
Benefit percentage						
Normal Retirement	4% per year of service, not to exceed 80%	3% per year of service, not to exceed 75%				
Disability retirement	80% with 10 or more years of service	75% with 10 or more years of service				
2	40% with 5 to 10 years of service	37.5% with 5 to 10 years of service				
	20% with less than 5 years of service	18.75% with less than 5 years of service				
Survivor Benefit						
Retired members	75% of retired member's benefit	50% of retired member's benefit				
Active members and other inactive members	75% of disability retirement benefit	50% of disability retirement benefit				

* With reduced benefits of 0.25% for each month early retirement precedes the member's normal retirement age, with a maximum reduction of 30%.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. In addition, the Legislature may enact permanent one-time benefit increases after a Joint Legislative Budget Committee analysis of the increase's effects on the plan.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 8 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 7 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Contributions – State statutes establish active member and employer contribution requirements. Statute also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State of Arizona to supplement the normal cost plus an amount to amortize the unfunded accrued liability and designates a portion of certain court fees for the EORP. For the year ended June 30, 2023, statute required active EORP members to contribute 7 or 13 percent of the members' annual covered payroll and the Town to contribute at the actuarially determined rate of 70.42 percent of all active EORP members' annual covered payroll. Also, statute required the Town to contribute 58.39 percent to EORP of the annual covered payroll of elected officials who were ASRS members and 64.42 percent to EORP of the annual covered payroll of elected officials who were EODCRS members, in addition to the Town's required contributions to ASRS and EODCRS for these elected officials. In addition, statute required the Town to contribute 48.58 percent of annual covered payroll of retired members who worked for the Town in positions that an employee who contributes to the EORP would typically fill. The Town's contributions to the pension and health insurance premium benefit plans for the year ended June 30, 2023, were \$22,728 and \$0, respectively.

During fiscal year 2023, the Town paid 100 percent of EORP pension contributions from the General Fund.

Liability – At June 30, 2023, the Town reported a liability for its proportionate share of the EORP's net pension liability that reflected a reduction for the Town's proportionate share of the State's appropriation for EORP. The amount the Town recognized as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the Town were as follows:

Town's proportionate share of the EORP net pension liability	\$ 270,003
State's proportionate share of the EORP net pension liability	
associated with the Town	 13,124
Total	\$ 283,127

The Town also reported an asset of \$7,681 for its proportionate share of EORP's net OPEB asset.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The net asset and net liability were measured as of June 30, 2022, and the total liability used to calculate the net asset or net liability was determined by an actuarial valuation as of that date. The total liabilities as of June 30, 2022, reflect changes of actuarial assumptions, including decreasing the investment rate of return from 7.3 percent to 7.2 percent, decreasing the wage inflation from 3.75 percent to 3.25 percent, and increasing the cost-of-living adjustment from 1.75 percent to 1.85 percent.

The Town's proportion of the net pension liability was based on the Town's required contributions to the pension plan relative to the total of all participating employers' required contributions for the year ended June 30, 2022. The Town's proportion of the net OPEB asset was based on the Town's present value of benefits relative to the total of all participating employers' present value of benefits for the year ended June 30, 2022. The Town's proportion measured as of June 30, 2022, and the change from its proportions measured as of June 30, 2021, were:

	Proportion June 30, 2022	Increase (decrease) from June 30, 2021
Pension	0.03999%	-0.00262%
Health insurance premium benefit	0.05972%	-0.00312%

Expense – For the year ended June 30, 2023, the Town recognized pension and OPEB expense for EORP of \$10,511 and \$2,064, respectively, and revenue of \$7,685 for the Town's proportionate share of the State's appropriation to EORP and the designated court fees.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Deferred outflows/inflows of resources – At June 30, 2023, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

		Pen	sion		He	ealth Insura Ber	ance Pre nefit	mium
	Out	eferred tflows of sources	Inf	eferred lows of sources	Out	ferred flows of sources	Infl	ferred ows of ources
Differences between expected and actual experience	\$	2,438	\$	-	\$	140	\$	345
Changes of assumptions or other inputs		-		-		308		-
Net difference between projected and actual earnings on pension plan investments		-		-		125		-
Changes in proportion and differences between Town								
contributions and proportionate share of contributions Town contributions subsequent to		-		8,479		2,977		-
the measurement date		22,728		-		-		-
Total	\$	25,166	\$	8,479	\$	3,550	\$	345

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The amounts reported as deferred outflows of resources related to EORP pensions and OPEB resulting from Town contributions subsequent to the measurement date will be recognized as an increase of the net asset or a reduction of the net liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions and OPEB will be recognized as expenses as follows:

Year ended June 30,	Р	ension	Insurance um Benefit
2024	\$	(7,988)	\$ 3,963
2025		23	6
2026		(1,149)	(138)
2027		3,073	373

Actuarial assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

EORP	
Actuarial valuation date	June 30, 2022
Actuarial cost method	Entry age normal
Investment rate of return	7.20%
Wage inflation	3.25% for pensions/not applicable for OPEB
Price inflation	2.5% for pensions/not applicable for OPEB
Cost-of-living adjustment	1.85% for pensions/not applicable for OPEB
Mortality rates	PubG-2010 tables
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2021.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The long-term expected rate of return on EORP plan investments was determined to be 7.20 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

EORP Asset Class	Target Allocation	Long-term Expected Geometric Real Rate of Return
U.S. public equity	24%	3.49%
International public equity	16%	4.47%
Global private equity	20%	7.18%
Other assets (capital appreciation)	7%	4.83%
Core bonds	2%	0.45%
Private credit	20%	5.10%
Diversifying strategies	10%	2.68%
Cash - Mellon	1%	-0.35%
Total	100%	

Discount rates – At June 30, 2022, the discount rate used to measure the EORP total pension liability and total OPEB liability was 7.2 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2021. The projection of cash flows used to determine the discount rates assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the actuarially determined rates, and State contributions will be made as currently required by statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Sensitivity of the Town's proportionate share of the EORP net pension/OPEB (asset) liability to changes in the discount rate – The following table presents the Town's proportionate share of the net pension/OPEB (asset) liability calculated using the discount rate of 7.2 percent, as well as what the Town's proportionate share of the net pension/OPEB (asset) liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.2 percent) or 1 percentage point higher (8.2 percent) than the current rate:

	Decrease (6.2%)	Cur	rent Discount Rate (7.2%)	 1% Increase (8.2%)
Town's proportionate share of the net pension liability Town's proportionate share of the	\$ 308,246	\$	270,003	\$ 237,245
net OPEB (asset)	(7,044)		(7,681)	(8,236)

Plan fiduciary net position – Detailed information about the plans' fiduciary net position is available in the separately issued EORP financial report.

EODCRS plan – Elected officials that are not members of EORP or ASRS participate in the EODCRS and the Elected Officials Defined Contribution Retirement System Disability Program (EODCDP). The EODCRS is a defined contribution pension plan. The EODCDP is a cost-sharing multiple-employer defined benefit disability (OPEB) plan for EODCRS members. The PSPRS Board of Trustees governs the EODCRS and EODCDP according to the provisions of A.R.S. Title 38, Chapter 5, Articles 3.1 and 3.2. Benefit terms, including contribution requirements, are established by state statute. The EODCDP is not further disclosed because of its relative insignificance to the Town's financial statements.

For the year ended June 30, 2023, active EODCRS members were required by statute to contribute 8 percent of the members' annual covered payroll, and the Town was required by statute to contribute 6 percent of active members' annual covered payroll to an individual employee account. Employees are immediately vested in their own contributions and the Town's contributions to the individual employee account and the earnings on those contributions. For the year ended June 30, 2023, the Town recognized pension expense of \$1,854.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

C. Public Safety Personnel Retirement System

Plan Descriptions – Town police officers participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The PSPRS administers agent and cost-sharing multiple-employer defined benefit pension plans and agent and cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plans. A 9-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. Employees who were PSPRS members before July 1, 2017, participate in the agent plans, and those who became PSPRS members on or after July 1, 2017, participate in the cost-sharing plans (PSPRS Tier 3 Risk Pool).

The PSPRS issues publicly available financial report that includes financial statements and required supplementary information. The report is available on the PSPRS website at www.psprs.com.

Benefits Provided – The PSPRS provide retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefits terms.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Initial Membership Date:				
	Before January 1, 2012	On or after January 1, 2012 and before July 1, 2017			
Retirement and Disability Years of service and age required to receive benefit	20 years of service, any age 15 years of service, age 62	25 years of service or 15 years of credited service, age 52.5			
Final average salary is based on	Highest 36 consecutive months of last 20 years	Highest 36 consecutive months of last 20 years			
Benefit percentage					
Normal Retirement	50% less 2.0% for each year of credited service less than 20 years OR plus 2.0% to 2.5% for each year of credited services over 20 years, not to exceed 80%	1.5% to 2.5% per year of credited service, not to exceed 80%			
Accidental Disability Retirement	50% or normal retireme	ent, whichever is greater			
Catastrophic Disability Retirement		ed to either 62.5% or normal retirement, r is greater			
Ordinary Disability Retirement	credited service, whichever is greater, m	l years of credited service or 20 years of ultiplied by years of credited service (not rs) divided by 20			
Survivor Benefit					
Retired Members	80% to 100% of retired	member's pension benefit			
Active Members		retirement benefit or 100% of average result of injuries received on the job			

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. Benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents.

Employees Covered by Benefit Terms – At June 30, 2023, the following employees were covered by the agent plans' benefit terms:

	PSPRS Police			
	Pension	Health		
Inactive employees or beneficiaries currently receiving benefits	8	8		
Inactive employees entitled to but not yet receiving benefits	1	1		
Active employees	8	8		
Total	17	17		

Contributions – State statutes establish the pension contribution requirements for active PSPRS employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2023, are indicated below. Rates are a percentage of active members' annual covered payroll.

	Active Member- Pension	Town-Pension	Town-Health Insurance Premium Benefit
PSPRS Police	7.65% - 11.65%	45.31%	0.00%

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

The Town's contributions to the plans for the year ended June 30, 2023, were:

		Health Iı	isurance
	 Pension	Premiun	n Benefit
PSPRS Police	\$ 1,680,208	\$	-
PSPRS Tier 3 Risk Pool	-		-

During fiscal year 2023, the Town paid for 100 percent of PSPRS pension and OPEB contributions from the General Fund.

Liability – At June 30, 2023, the Town reported the following asset and liability:

	Net l	Net Pension (Asset) Liability		Net OPEB (Asset) Liability	
PSPRS Police	\$	2,191,456	\$	(134,156)	

The net assets and net liabilities were measured as of June 30, 2023, and the total liability used to calculate the net asset or liability was determined by an actuarial valuation as of that date. The total liabilities as of June 30, 2022, reflect changes of actuarial assumptions, including decreasing the investment rate of return from 7.3 percent to 7.2 percent, changing the wage inflation from 3.5 percent to a range of 3.0 - 6.25 percent, and increasing the cost-of-living adjustment from 1.75 percent to 1.85 percent.

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

Actuarial valuation date	June 30, 2022
Actuarial cost method	Entry age normal
Investment rate of return	7.20%
Wage inflation	3.00 - 6.25% for pensions/not applicable for OPEB
Price inflation	2.5% for pensions/not applicable for OPEB
Cost-of-living adjustment	1.85% for pensions/not applicable for OPEB
Mortality rates	PubG-2010 tables
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2021.

The long-term expected rate of return on PSPRS plan investments was determined to be 7.2 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Geometric Real Rate of Return
U.S. public equity	24%	3.49%
International public equity	16%	4.47%
Global private equity	20%	7.18%
Other assets (capital appreciation)	7%	4.83%
Core bonds	2%	0.45%
Private credit	20%	5.10%
Diversifying strategies	10%	2.68%
Cash - Mellon	1%	-0.35%
Private equity	0%	0.00%
Non-U.S. equity	0%	0.00%
U.S. equity	0%	0.00%
Total	100%	

NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS – Continued

Discount Rates – At June 30, 2022, the discount rate used to measure the PSPRS total pension/OPEB liabilities was 7.2 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

TOWN OF THATCHER, ARIZONA Required Supplementary Information Notes to Budgetary Comparison Schedules June 30, 2023

NOTE 1 – BUDGETING AND BUDGETARY CONTROL

Arizona Revised Statutes (A.R.S.) requires the Town to prepare and adopt a balanced budget annually for each governmental fund. The Town Council must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibit expenditures or liabilities in excess of the amounts budgeted.

Expenditures may not legally exceed appropriations at the department level. In certain instances, transfers of appropriations between departments or from the contingency account to a department may be made upon the Town Councils' approval.

NOTE 2 – BUDGETARY BASIS OF ACCOUNTING

The Town's budget is prepared on a basis consistent with generally accepted accounting principles.

NOTE 3 – EXPENDITURES IN EXCESS OF APPROPRIATIONS

For the year ended June 30, 2023, expenditures exceeded final budget amounts at the department level (the legal level of budgetary control) in the Administration, Parks and recreation, Police, Fire, Shop, Streets, Town Engineer, Miscellaneous, and Infrastructure departments in the General Fund, the Highways and streets department in the HURF Fund, and the Grants department in the Grants Fund.

The Town was not required and did not contribute to the EORP health insurance premium benefit plan for fiscal years 2023 through 2017. Information for fiscal years 2016 through 2014 is not available.

TOWN OF THATCHER, ARIZONA Required Supplementary Information Notes to Pension/OPEB plan schedules June 30, 2023

NOTE 1 – ACTUARIALLY DETERMINED CONTRIBUTION RATES

Actuarial determined contribution rates for PSPRS are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Actuarial cost method Amortization method Remaining amortization period as	Entry age normal Level percent-of-pay, closed
of the 2021 actuarial valuation	18 years
Asset valuation method	7-year smoothed market value; 80%/120% market corridor
Actuarial assumptions:	
Investment rate of return	In the 2019 actuarial valuation, the investment rate of return was decreased from 7.4% to 7.3%. In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%. In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%. In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85%.
Projected salary increases	In the 2017 actuarial valuation, projected salary increases were decreased from $4.0\%-8.0\%$ to $3.5\%-7.5\%$ for PSPRS. In the 2014 actuarial valuation, projected salary increases were decreased from $4.5\%-8.5\%$ to $4.0\%-8.0\%$ for PSPRS. In the 2013 actuarial valuation, projected salary increases were decreased from $5.0\%-9.0\%$
Wage growth	In the 2017 actuarial valuation, wage growth was decreased from 4% to 3.5% for PSPRS. In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0% for PSPRS. In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS.
Retirement age	Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006 - June 30, 2011.
Mortality	In the 2019 actuarial valuation, changed to PubS-2010 tables. In the 2017 actuarial valuation, changed to RP-2014 tables, with 75% of MP-2016 fully generational projection scales. RP-2000 mortality table (adjusted by 105% for both males and females)

NOTE 2 – FACTORS THAT AFFECT TRENDS

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS and EORP changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS and EORP also reduced those members' employee contribution rates.

TOWN OF THATCHER, ARIZONA Required Supplementary Information Notes to Pension/OPEB plan schedules June 30, 2023

NOTE 2 – FACTORS THAT AFFECT TRENDS - Continued

These changes are reflected in the plans' pension liabilities for fiscal year 2015 (measurement date 2014) for members who were retired as of the law's effective date and fiscal year 2019 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes increased the PSPRS-required pension contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS-required contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS-required contributions beginning in fiscal year 2019 for members who retired or will retire after the law's effective date. EORP-required contributions are not based on actuarial valuations, and therefore, these changes did not affect them. Also, the Town refunded excess employee contributions to PSPRS members. PSPRS allowed the Town to reduce its actual employer contributions for the refund amounts. As a result, the Town's pension contributions were less than the actuarially or statutorily determined contributions for 2018 and 2019.

The fiscal year 2019 (measurement date 2018) pension liability for EORP reflects the replacement of the permanent benefit increase (PBI) for retirees based on investment returns with a cost of living adjustment based on inflation. Also, the EORP liability and required pension contributions for fiscal year 2019 reflect a statutory change that requires the employer contribution rate to be actuarially determined. This change increased the discount rate used to calculate the liability thereby reducing the total pension liability.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Independent Auditors' Report

To the Town Council of Town of Thatcher, AZ

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Thatcher, AZ (the Town), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated .

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a deficiency in internal control, described in the accompanying schedule of findings and responses as item 2023-001, that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2023-002.

The Town's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the Town's response to the finding identified in our audit and described in the accompanying schedule of findings and responses. The Town's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Baker Tilly US, LLP

Tempe, Arizona February 1, 2024

Town of Thatcher

Schedule of Findings and Responses Year Ended June 30, 2023

Financial Statement Findings Required to be Reported in Accordance With Government Auditing Standards

Finding 2023-001: Capital Assets

Criteria: The Town should implement policies and procedures to thoroughly review and update the detailed capital asset records/listing of the Town. The procedures should be done at least annually. Items to be reviewed should include the cost basis of each asset, the purchase date, the placed inservice date (if applicable), the depreciable life (if applicable), and the classification. In addition, the review may include an annual inventory of the Town's capital assets.

Condition: For fiscal year 2023, no formal procedures had been implemented at the Town to thoroughly review the capital asset listing of the Town. Not having these procedures was instrumental in causing the capital asset listing of the Town to require adjustment/correction.

Cause: Formal annual reviews of the capital asset listing were not being performed by the Town. Such reviews and updates help ensure accuracy of the capital asset records/listing.

Effect: As a result, there were items on the asset listing needing correction/adjustment. For example, one asset was classified as depreciable, when, after further review, should not have been. Another item on the listing should have been removed from the listing in fiscal year 19-20 when the project scope was changed and refunded to the Town. In all, it was found that the listing required restatement in the amount of \$153,859.

Recommendation: It is recommended that the Town put into place formal procedures to review the cost basis of each asset, the purchase date, the placed in-service date (if applicable), the depreciable life (if applicable), and the classification of individual capital assets at least annually. Additionally, we recommend that the Town perform an inventory of assets at least annually.

Management's Response: Management concurs with the recommendation and will implement formal procedures to thoroughly review and update the capital asset listing and perform an inventory of all capital assets of the Town at least annually.

Finding 2023-002: Departmental Budgets

Repeat finding of 2022-001.

Criteria: Arizona Revised Statutes do not allow budgeted expenditures to be exceeded at the department level.

Condition: Actual expenditures exceeded budgeted expenditures at the department level (the legal level of budgetary control) in the Administration, Parks and recreation, Police, Fire, Shop, Streets, and Town Engineer departments in the General Fund. Additionally, the Highways and streets department in the HURF Fund and Public Safety department in the Grants Fund exceeded budgeted expenditures.

Cause: Proper procedures were not in effect to ensure that Town expenditures did not exceed budgeted amounts.

Effect: As a result, the Town's actual expenditures exceeded budgeted amounts within those listed departments.

Recommendation: Management should periodically review and reconcile actual departmental expenditures with approved budgeted expenditures.

Schedule of Findings and Responses Year Ended June 30, 2023

Management's Response: The Town will implement procedures to periodically review and reconcile actual departmental expenditures with approved budgeted expenditures. If an increase is needed to a department budget, staff will present the decision to the Town Council for consideration. The Town Manager is responsible for the implementation of these procedures. The Town expects to have these procedures in place by June 30, 2024.

Summary of Prior Year Audit Findings

The finding from the year ended June 30, 2022 included in the schedule of findings and questioned costs is discussed below. The finding is numbered consistently with the number assigned in the schedule.

Noncompliance Finding

Finding: 2022-001 – Departmental Budgets (Repeated as finding 2023-001)

Criteria: Arizona Revised Statutes do not allow budgeted expenditures to be exceeded at the department level.

Condition: Actual expenditures exceeded budgeted expenditures at the department level (the legal level of budgetary control) in the Administration, Magistrate, Parks and recreation, Shop, Streets, and Town Engineer departments in the General Fund and the Highways and streets department in the HURF Fund.

Cause: Proper procedures were not in effect to ensure that Town expenditures did not exceed budgeted amounts.

Effect: As a result, the Town's actual expenditures exceeded budgeted amounts within those listed departments.

Recommendation: Management should periodically review and reconcile actual departmental expenditures with approved budgeted expenditures.

Management's Response: The Town will implement procedures to periodically review and reconcile actual departmental expenditures with approved budgeted expenditures. If an increase is needed to a department budget, staff will present the decision to the Town Council for consideration. The Town Manager is responsible for implementation of these procedures. The Town expects to have these procedures in place by June 30, 2023.

Current Status: Not Corrected.
